

From field conditions to usable evidence

A conceptual monitoring station, its signal and the context that makes a reading useful.

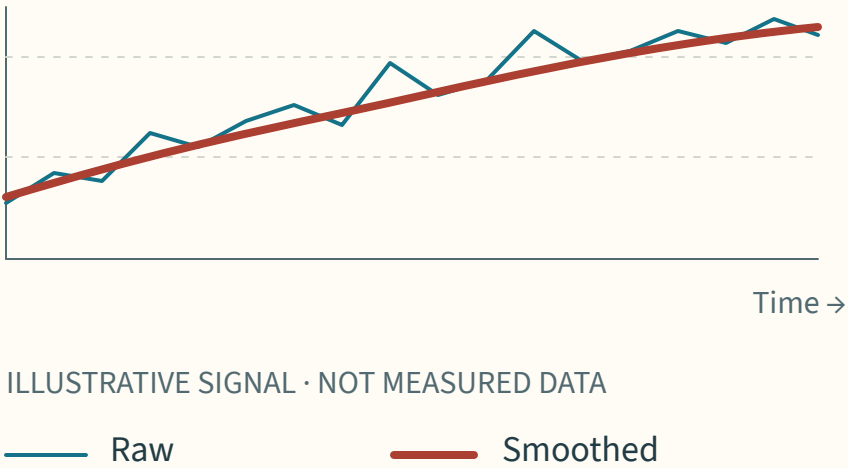

01 / PHYSICAL SYSTEM Inside a monitoring station

MOISTURE PROBE

A physical measurement becomes a traceable observation.

02 / SIGNAL Reading a noisy signal

03 / EVIDENCE Preserve the context

- 01 Capture**
Keep the raw reading and timestamp.
- 02 Calibrate**
Record units and calibration version.
- 03 Interpret**
Carry quality flags into the report.
